PROFILE

A highly motivated and dedicated Software Engineer with hands-on experience building back-end applications using Java, Spring Boot, and ASP.NET Core. Familiar with developing scalable solutions, integrating databases, and implementing secure authentication protocols such as JWT and ASP.NET Identity. Eager to apply problem-solving skills, creativity, and passion for technology in a collaborative environment. Focused on continuous learning and committed to contributing effectively to the development of high-quality software applications.

EDUCATION

Information Technology Institute (ITI)

9-Month Trainee Professional Web Development & BI-infused CRM

- Covering ASP.NET Core, Angular, React, Clean Architecture, enterprise CRM SQL Server, and production-grade software engineering practices

Menofia, Egypt

Oct 2025 – In Progress

development,

Benha University – Faculty of Engineering

Bachelor of Civil Engineering

- **Grade:** Good (overall), Excellent (Graduation Project)

Benha, Egypt

Oct 2020 – Jun 2025

PROJECTS

Delivora — Food Delivery Platform | ASP.NET Core API | Angular

[GitHub](#) 📁

- **Built** a full-stack food delivery platform with an ASP.NET Core REST API backend and an Angular frontend.
- **Secured** the API with JWT auth and RBAC for Admin, Customer, and Driver roles.
- **Designed** a 14-entity domain and implemented EF Core + SQL Server with migrations and Swagger docs.
- **Technologies:** ASP.NET Core | EF Core | SQL Server | JWT | Identity | Angular | Swagger

Sillage — Fragrance E-Commerce Platform | ASP.NET Core MVC, Identity, Stripe

[Live Video](#) 📁 [GitHub](#) 📁

- **Built** a full-stack fragrance e-commerce platform with a customer storefront and a feature-rich admin dashboard.
- **Implemented** role-based auth (Admin/Customer) using ASP.NET Core Identity, and integrated Stripe for payment processing.
- **Developed** an admin dashboard with KPI tracking, revenue charts, inventory alerts, and live activity feed.

RAG System — Document Q&A | Node.js, Express, OpenAI Embeddings, ChromaDB, Vector Search

[GitHub](#) 📁

- **Engineered** a full RAG pipeline: document ingestion, chunking, OpenAI embedding generation, ChromaDB vector storage, and semantic retrieval across 100+ document chunks.
- **Exposed** a REST /ask endpoint with context-restricted LLM responses to eliminate hallucinations; built a real-time browser UI for document Q&A.

Hogwarts Artifacts Online | Spring Boot Backend Application

[GitHub](#) 📁

- **Developed** a RESTful Spring Boot application for managing magical artifacts, featuring full CRUD operations for artifacts, wizards, and users.
- **Implemented** JWT-based authentication, OAuth2 login, and robust exception handling to ensure secure and reliable API interactions.
- Follows TDD principles and uses a modular, scalable architecture with Spring Data JPA and an H2 database for persistent storage.

CONCEPTUAL KNOWLEDGE

Object Oriented Programming · SOLID Principles · Clean Architecture · Data Structures & Algorithms · Aspect-Oriented Programming · CQRS · System Design

TECHNICAL SKILLS

Programming Languages: Java | C# | C++ | JavaScript (ES6+) | TypeScript
Java SE: Java Core | JDBC | Java NIO | Threading | Collections
Database: Database Fundamentals | SQL (MySQL, PostgreSQL, SQL Server, SQLite)
Java Backend: Spring Framework | Spring Core | Spring Data JPA | Spring Boot | Spring AOP | Spring MVC
Spring Security | ORM (Hibernate, JPA) | RESTful APIs | JSON
.NET Backend: ASP.NET Core MVC | ASP.NET Core Web API | Entity Framework Core | LINQ | Dapper
Dependency Injection | Repository & Service Pattern | Auto Mapper | ASP.NET Core Identity
Client Side: HTML5 | CSS3 | Bootstrap | Tailwind | Blazor | JavaScript (ES6+) | Angular | React
AI / ML: RAG System | LLM Fine-Tuning and Training | OpenAI API | Gemini API | Vector Search
Testing: JUnit 5 | Spring Test | Mockito | XUnit
Tools: Maven | Git | GitHub | Docker | CI/CD | IntelliJ | Visual Studio | VS Code | Postman | Swagger | Jira | n8n

SOFT SKILLS

Problem-Solving · Collaborative · Fast Learner · Detail-Oriented · Flexible · Team Player

LANGUAGES

Arabic: Native **English:** Professional working proficiency

ADDITIONAL INFORMATION

Military Status: Exempted | 2025
